

ANNEX A

TRADING RULES

1. INTRODUCTION

Pro Finance Group Inc. acts as a market maker and is a counter party in each transaction with its Customer. All positions are opened through its trading platform or telephone desk and are accepted at the sole discretion of Pro Finance Group Inc.

1.1. Customer's Responsibility

By signing this document the Customer agrees with trading rules of Pro Finance Group Inc. and undertakes to comply with these rules when effecting trading transactions. Trading rules constitute an annex to and an integral part of the Customer Agreement. It is the Customer's responsibility to carefully read these trading rules before starting trading. Pro Finance Group Inc. may, in its absolute discretion, make amendments to these trading rules from time to time, which will also apply to the prior agreements.

1.2. Account Application

Before opening positions, the Customer must complete all of the steps in Article 3.1 of these trading rules.

1.3. Standard Forex _ Mini Forex Accounts

When opening an account, the Customer may select the suitable type of account depending on his experience and degree of risk. As trading progresses, the Customer may change the type of account from one to another. Changing the type of account is subject to the following:

- all positions of the Customer must be closed;
- the Customer must send to Pro Finance Group Inc. an e-mail requesting the change;
- the change will take effect within 24 hours.

2. TRADING HOURS

All references to Pro Finance Group Inc. time of trading are in the GMT using a 24-hour format. The Customer may effect trading transactions from 23:00 GMT on Sunday to 21:00 GMT on Friday, excluding holidays. Pro Finance Group Inc. reserves the right to modify its trading hours at any time.

3. ORDERS

Types of Orders Accepted

All orders given by the Customer are considered GTC (Good Till Cancelled). There are two types of orders: market orders and pending orders. Market orders are orders sent for immediate execution, while pending orders are left to be executed at the price specified by the Customer. Pending orders are divided into two general types: limit orders and stop orders. A limit order is a pending order to buy or sell one specific currency against another specific currency (a currency pair). A stop order is a pending order to buy or sell one specific currency against another specific currency (a currency pair) at a specified price for the purpose of limiting losses by liquidating an open position, or opening a new position.

3.1. Transaction Size

The minimum transaction size is 100,000 units of the base currency for Standard Forex (designated on the trading platform as 1 lot) and 10,000 (designated on the trading platform as 0.1 lot) for Mini

Forex. The maximum transaction size is determined by Pro Finance Group Inc. Any position opening requires margining.

3.2. Position Opening

a) Once the Customer has opened a position or sent an order, the Customer assumes all liability and risks in connection with that position or order.

b) Position Opening Through the Telephone Desk

A transaction executed through the telephone desk is deemed completed when Pro Finance Group Inc. says "done". This means that the Customer has bought or sold and cannot cancel the transaction. By placing orders and making transactions through the telephone desk, the Customer agrees to such immediate execution and accepts the risk associated therewith.

3.3. Terms of Acceptance for Orders and Transactions

It is Customer's sole responsibility to clearly indicate the terms of an order (or transaction) when entered. If the Customer does not understand any of the terms of an order (or transaction), the Customer should immediately contact Pro Finance Group Inc. for assistance.

Pro Finance Group Inc. shall have the right, but not the obligation, to reject any order in whole or in part before or after confirmation, or to cancel and rescind any completed transaction, where the Customer's Account contains Margin that is insufficient to support the entire order at the time that market prices reach the levels as specified by the Customer, where, in the opinion and sole discretion of Pro Finance Group Inc., the execution of such order may place the Customer's account in an insufficient margin condition: in the event of unloadings, etc., or where such order or completed transaction is illegal or otherwise contradicts existing regulations.

3.4. Order Cancellation

Pending orders may be cancelled via the trading platform. However, rapid changes in prices may cause the Customer's order to be executed before the Customer can cancel it. In such event Pro Finance Group Inc. shall have no liability for any claims, losses, damages, costs or expenses, including attorneys' fees, which may arise, directly or indirectly, out of the impossibility to cancel such order.

3.5. Execution of Pending and Market Orders

a) Quotation and Execution of Orders in Quiet Market Conditions

In quiet market conditions the quotations received from the dealer correspond to or slightly differ from the quotes in the Market Watch Screen on the MetaTrader platform. Spreads are 3-5 points on major currencies. The orders are executed exactly at the price specified in the order, regardless of its type.

b) Quotation and Execution of Orders in Volatile Market Conditions

Rapid movements in the market generally occur after publication of major macroeconomic indicators, economic or political news or in force-majeure circumstances. In such cases the dealer has the right to change the price and suggest executing a transaction at a new price, but the orders are executed precisely at the specified prices.

c) Execution of Orders Where Market Opens with a Gap or a Gap Arises Within the Day

If the market opens with a gap or a gap arises within the day (as a rule, this occurs after weekends and holidays, after publication of major macroeconomic indicators, economic and political news and in force-majeure circumstances), then the orders are executed as follows:

Filled Trade

A Trade that is fully executed on behalf of a Customer's Account pursuant to an Order. Once filled,

an Order cannot be cancelled, amended or waived by Customer.
Take Profit (T/P) orders are fulfilled at states prices;
Stop Loss (S/L) orders are fulfilled at states prices;
Buy Limit & Sell Limit orders are fulfilled at states prices;
Buy Stop & Sell Stop orders are fulfilled at the first prices in the market.

3.6. Telephone Trades. Recording. Confirmation

Any or all conversations of the Customer with Pro Finance Group Inc. principals, agents, employees or associates, including its front office, may, at the option and in the sole discretion of Pro Finance Group Inc., be recorded electronically with or without the use of an automatic warning signal. Orders placed and transactions executed through the telephone desk will be verbally confirmed to the Customer at the time an order is placed. If the order cannot be executed immediately, it will be executed in accordance with its terms.

3.7. Confirmation

Transactions and orders executed online are displayed in the trade terminal on the "Trade" screen and on the "Account History" screen. Telephone transactions and orders are confirmed verbally and are entered online in the trade terminal. Confirmations of completed transactions and account statements will be sent out to the Customer by e-mail by 23:00 GMT daily and will be deemed correct, conclusive and binding upon the Customer if not objected to immediately by phone or email, and such objection is confirmed in writing two (2) days after transmittal of the confirmation or statement to the Customer by e-mail or otherwise. Pro Finance Group Inc. reserves the right to be the final arbiter with respect to disputed transactions.

4. CUSTOMER ACCOUNTS. INITIAL DEPOSITS. DEMO TRADING SYSTEM.

4.1. Documents

Before the Customer can conduct trading transactions, the Customer must read, complete, execute and deliver to Pro Finance Group Inc.

(1) Account Application

(2) Customer Agreement (including all Annexes thereto). The Customer Agreement includes the Risk

Disclosure Statement and these Trading Rules, each of which must be signed separately.

4.2. Expedited Acceptance

Pro Finance Group Inc. may, in its sole discretion, provide on-line conditional acceptance of the necessary documents and/or a fax copy of all pages requiring signature, and on that basis may permit trading transactions, provided that the Customer has deposited a sufficient amount into the account;

4.3. Currency of the Account

All initial deposits to the Customer's Accounts will be accepted only in U.S. Dollars (the incoming wires in foreign currencies will be automatically converted into U.S. Dollars). All account balances will be computed and reported to the Customer only in U.S. Dollars.

4.4. Minimum Initial Deposit

The minimum initial deposit to open a Standard Forex Account is \$2,000 and to open a Mini Forex Account is \$200. The deposit can be transmitted to Pro Finance Group Inc. by bank transfer, credit card or otherwise.

4.5. Receipt of Deposits

No deposit will be recognized as received until the transfer has been fully completed and collected by Pro Finance Group Inc. bank or depository institution.

4.6. Fees

All banking fees will be charged to the Customer's account with Pro Finance Group Inc.

5. MARGIN REQUIREMENTS

5.1 Margin

Pro Finance Group Inc. will permit the Customer to post as margin a percentage of the full amount which the Customer is obligated to pay to Pro Finance Group Inc. under the contract to secure Customer's obligations to Pro Finance Group Inc.

The required margin for open positions is calculated based on:

- (a) the opening margin;
- (b) the maintenance margin;
- (c) the market value of open positions.

The margin requirements are subject to change at any time in sole discretion of Pro Finance Group Inc. and without prior notice.

5.2. Opening Margin. Changes

This is the minimum amount of money on deposit necessary (in the sole discretion of Pro Finance Group Inc.) to open a new position. For Standart Forex account the current minimum margin to open a position is equal to 1% (one percent) of the position, that is a 100:1 leverage. For Mini Forex account the current minimum margin to open a position is equal to 0.5% (zero point five percent) of the position, that is a 200:1 leverage, but Customer can utilize smaller ratios.

If the Customer wishes to change the ratio at any time after the Account is opened, the following two conditions must be satisfied:

- the Customer must close all open positions and
- Customer must send an e-mail requesting the change

The change will take effect within 24 hours of receipt by Pro Finance Group Inc. of the email request.

5.3. Maintenance Margin

The maintenance margin is the minimum equity necessary (in the sole discretion of Pro Finance Group Inc.) to maintain open positions in the Customer's Account. Unrealized gains/losses will affect the value of the equity in the Account.

5.4. Withdrawal of Funds

Payments from the Customer's Account require a duly signed Notice of Withdrawal. Completing a bank transfer will require three (3) business days after the date of receipt of the Notice of Withdrawal.

5.5. Liquidation Level

If the equity on the Customer's account equals 35% (twenty five percent) of the margin required, the Customer have a margin call. This means that Pro Finance Group Inc. will have the right (but not the obligation) to liquidate any part of or all open positions in the Customer's Account, when the equity on the Customer's Account will equal 30% of the margin required which is a stop out level. However, the rules of Pro Finance Group Inc. may result in position liquidation at a level substantially below 30%. Any failure by Pro Finance Group Inc. to enforce its rights in such cases shall not be deemed a future waiver of such rights by Pro Finance Group Inc.
